

## STUDENT MATH NOTEBOOK RUBRIC

*Using a math notebook or other tool to help you remember and process information is a key component to using EdReady or any other online learning textbook successfully.*

Math Notebooks must include the following sections to receive full credit:

- Daily Goal Sheets
- Sections with Notes
- Problems I Need Help With

### Math Notebook Grading Rubric

|                                      | <b>Wow! (4)</b>  | <b>Good (3)</b>  | <b>Almost (2)</b>  | <b>Try Again (1)</b>                                  |
|--------------------------------------|--|--|--|---|
| <b>Daily Goal Setting</b>            | Goals are clear, focused and show a plan for the day   | Goals are clear, but need improvement for true learning                                    | Goals are unclear or irrelevant                            | Some goals are missing. Goals lack focus and clarity. |
| <b>Notes</b>                         | Sections are clearly labelled and there is at least one example and one sentence per topic                                     | Sections are not labelled. More examples or explanations are needed to show understanding. | Notes are helpful, but need more content to help learning. | Notes are unorganized and not helpful to learning.    |
| <b>Problems I Need Help With</b>     | Problems are clearly written with answers and explanation is written in an organized way showing understanding of the concept. | Problems are written, but explanation is unclear.  | Problems are unorganized and have missing information.     | Section is missing                                    |
| <b>Total Score: ____/12 or ____%</b> |  |  |  |   |
